Are Our International Drugs Safe?

CANADA R_x SHOP exclusively processes orders with Government approved and controlled Pharmacies who are by law and contractually required to dispense only medications from manufacturers that are FDA approved for re-importation into the USA. The information below will be on invoices of your medication orders that are sent to you:

"Important Information

You may have noticed that the medication which has been shipped to you is different in name or presentation to that which you may have received in the past.

IF YOU HAVE ORDERED A BRANDED DRUG (BG) the name may appear different to the one you are used to. The reason for this is that you have been supplied an internationally **branded product** and for various reasons drug companies market their products under **different names and packaging in different countries**. These products are branded, ethical medications **produced by the same manufacturer or under license, and are not generic copies**. Our international suppliers have strict government controls on the standards of pharmaceutical manufacturing, and we assure you of the **highest quality possible**.

IF YOU HAVE ORDERED A GENERIC DRUG (G) the name and appearance may be different to the generic drug you have taken in the past. Our generic drugs are sourced internationally from manufacturers who **meet the same International regulatory standards that control the manufacture of branded drugs**, ensuring the same high standards of quality.

If your complete order has not arrived, it may be that other items have been shipped separately from another International Distribution Centre."

Winter Springs, FL September 15, 2011

and our money saving suggestions on how to
avoid the Donut Hole FREE of charge

Canada Rx Shop Service Details

Canada Rx Shop is NOT a pharmacy. We do **NOT** receive, process, fill, ship, order, store, distribute, counsel on or charge for prescriptions. We offer a **public service, FREE** of charge, to help you order your Prescription Medication directly from our contracted, licensed, bonded and FDA approved USA, Canadian or International Pharmacy and manufacturing partners. **All manufacturers of medications and dispensing pharmacies are US FDA approved.**

There are two ways to order prescription medication with our assistance:

1. Start the process by calling Canada Rx Shop to place an order. We will ask you a few questions and complete the necessary pharmacy forms while you are on the phone. Mail, fax or Email your prescription to the above address. Your order will then be forwarded to the US, Canadian or International Pharmacy that offers the lowest price for your medication.
Ph: **407-327-0110**, Toll-free: **1-800-967-4582**, Fax: **407-327-0112**, Email: **hans@canadarxshop.com**
2. If you live locally visit us at our Walk-in Service Center. One of our trained assistants will be happy to help you. Please bring your prescription to your visit.

Your file is strictly confidential and no information is available to anyone other than licensed physicians and pharmacists (HIPAA Law).

Your first international order could take up to 15 business days to be delivered to your residence. Orders from our US pharmacies are shipped within 48 hours after receiving your original prescription.

We will remind you of refills due 3 – 4 weeks before you run out of your medication to make sure you have a new supply when you need it. You can order refills yourself by phone, fax or Email at any time.
